

Annual International Coastal Cleanup Day

On Saturday, September 16, 2017, Jamaica Japan Exchange & Teaching Programme Alumni Association (JJETAA) joined the Jamaica Environment Trust for the annual International Coastal Cleanup Day on the beach off the Palisadoes Main Road, Kingston. In addition to the members of the JJETAA, a former Japanese Government Scholarship student, members of the UWI Japanese Club, Embassy staff, their friends and families also joined the group. With every effort and great team work, the group collected 11 bags (145lbs) of garbage.
