

Grant Assistance for Grass-Roots Human Security Project
Completion of
The Project for the Improvement of School Transportation System
at Richmond Park Primary School

Through our Grant Assistance for Grass-Roots Human Security Project, one new school bus was officially handed over to Richmond Park Primary School, and the project was completed on the 5th of June, 2020. Due to the ongoing COVID-19 pandemic, the school has remained closed nationwide. However, we believe that Jamaica's efforts to combat this disease will yield positive results. We hope the students of this school will start commuting in the new school bus and will receive the benefit from the safe transportation when the school resumes. The government of Japan will continue to support Jamaica while strengthening the partnership between Jamaica and Japan.
